

INSTALLATION

1. Remove the cap and fill the foot up to 70%. Moooi advises to use sand or gravel to fill.
2. Seal the foot with the cap and mount the top by screwing the 3 or 6* bolts in the table through the holes in the mounting disc.
(* depending on the size of foot or top)

ADVICE

When using water making sure to add anti-algae and when used outdoors anti-freeze. Follow the instructions on the manuals included with these products.

USE

- * Woodvener tops and steel covers are not suitable for outdoor use
- * HPL and LPL tops can be cleaned with any custom household cleaning product
- * Clean woodvener tops with a slightly moist cloth only

TECHNICAL INFORMATION

name container foot 4530, 7030, 7043, 7056, 10030
code motcfp453, motcfp073, motcfp074, motcfp075, motcf0103

dimensions foot

4530	45 x 30 (hxd), approx. 16 liter of filling required
7030	70 x 30 (hxd), approx. 28 liter of filling required
7043	70 x 43 (hxd), approx. 63 liter of filling required
7056	70 x 56 (hxd), approx. 105 liter of filling required
10030	100 x 30 (hxd), approx. 24 liter of filling required

material foot
polyethylene (PE)

design
Marcel Wanders

production
